

Background:

Early Intervention (EI) Colorado, within the Colorado Department of Early Childhood (CDEC), has policies and procedures relating to the establishment and maintenance of qualification standards to ensure that personnel necessary to carry out the purposes of Part C of the Individuals with Disabilities Education Act (IDEA) are appropriately and adequately prepared and trained. These policies and procedures include the establishment and maintenance of qualification standards that are consistent with any State-approved or State-recognized certification, licensing, registration, or other comparable requirements that apply to the profession, discipline, or area in which qualified personnel are providing early intervention services.

Qualified personnel refers to personnel who have met State approved or recognized certification, licensing, registration, or other comparable requirements that apply to the areas in which the individuals are conducting evaluations or assessments or providing early intervention services.

Providers are required to keep accurate and current credential documentation in the Provider Portal.

EI Colorado Philosophy and Purpose:

Colorado's EI program provides supports and services to children with developmental delays or disabilities and their families from birth until the child's third birthday. EI Colorado can help families learn ways to support and promote their child's development within their everyday routines and activities.

Evaluation:

For purposes of this document, evaluation refers to the initial and annual evaluation to determine the eligibility status of an infant or toddler. **Evaluators** refer to EI providers/evaluators who use an approved tool to assess the developmental levels of infants and toddlers to inform eligibility. The evaluation section contains more detailed information regarding evaluations and the requirements of evaluators.

El Colorado EI Provider Training Information:

In order to align with national standards, the EI Provider Training is a **required** component of El Colorado's Personnel Standards for those providing direct services to children and families through El Colorado. The addition of this requirement ensures providers of EI services in Colorado receive consistent professional development and information about EI services and the Individualized Family Service Plan process. All providers of EI services must complete the EI Provider Training course, which includes 13 modules plus a final exam. Providers should have the provider modules completed by the time the billing for the services they provide happens. Providers will need to upload their certificate of completion in the [Provider Portal](#).

El Colorado Telehealth Training Information:

This training is **required** for Early Intervention Colorado providers who plan to use Telehealth as a service delivery method.

The telehealth training is encouraged for all Early Intervention staff, including service coordinators. The information will support all Early Intervention professionals with the knowledge to better support families and providers in accessing telehealth services.

For information on how to complete the EI Provider and Telehealth trainings, please visit this [website](#).

DC 0-5 Training Information:

This training is **required** for evaluators and providers in the area of social and emotional development. Please consult the evaluation section (for evaluators) and the Social & Emotional section (for providers) to determine if the DC 0-5 Overview or Clinical Training is required.

For information on how to enroll into this course, please visit this [website](#).

Informed Opinion of Delay Training:

This training is **required** for evaluators and providers to use Informed Opinion of Delay for initial and annual eligibility determinations.

For information on how to enroll in this course, please visit this [website](#).

Evaluation:

For purposes of this document, **evaluation** refers to the initial and annual evaluation to determine the eligibility status of an infant or toddler.

Evaluators refer to EI providers/evaluators who use an approved tool to assess the development levels of infants and toddlers to inform eligibility. Evaluators must meet the personnel standards set forth by EI Colorado.

It is required that two evaluators are present during the multidisciplinary evaluation, with at least one provider that is qualified to evaluate in the child's primary area of concern. Providers may have extended training that qualifies them to evaluate additional areas. Not all providers of EI services are qualified to participate as a member of a multidisciplinary team that inform a child's eligibility. Please reference the evaluation tab for further information about EI provider types who are qualified to evaluate.

A **multidisciplinary evaluation team** must consist of two evaluators from different disciplines (ex. a Physical Therapist and a Speech-Language Pathologist). It is recommended that at least one provider is qualified to evaluate in the child's primary area of concern. A multidisciplinary team must be able to determine the child's level of functioning in all five developmental domains. The domains are: Adaptive, Cognitive, Communication, Physical, Social and Emotional. Hearing and vision screening is a **requirement** for each evaluation. This section contains information on the alignment of provider disciplines and the child's area of primary concern.

Qualified Evaluators	Minimum Standards	Regulatory Agency	Primary Area of Concern (Recommended)
Audiologist	-Doctorate (after July 1, 2007) or Master's Degree with American Speech-Language-Hearing Association (ASHA) Certification of Clinical Competence in Audiology (CCC-A) -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	- Colorado Department of Regulatory Agencies (DORA) - American Speech-Language-Hearing Association (ASHA)	Physical (Hearing)
Early Childhood Educator (ECE), (ages 0-8) <i>endorsement</i>	-Colorado state license with birth -8 endorsement, or current and equivalent license from another state -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	Colorado Department of Education (CDE)	Cognitive, Adaptive, Social-Emotional (with completion of the DC 0-5 Clinical Training)

Early Childhood Special Educator (ECSE) or Early Childhood Special Education Specialist, (ages 0-8) <i>endorsement</i>	-Colorado license/endorsement or equivalent license/endorsement in another state -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	Colorado Department of Education (CDE)	Cognitive, Adaptive, Social-Emotional (with completion of the DC 0-5 Clinical Training)
Early Childhood Special Educator (ECSE) EI CO <i>waiver</i>	-Master's degree in ECSE, knowledge of child development and documented experience in supporting infants and toddlers with developmental concerns and their families (with Specialized DI Waiver) -Completion of EI Colorado's EI Provider Training	Colorado Department of Early Childhood (CDEC) - Early Intervention (EI) Colorado Program	Cognitive, Adaptive, Social-Emotional (with completion of the DC 0-5 Clinical Training)
Occupational Therapist (OT)	-Colorado State License -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	Colorado Department of Regulatory Agencies (DORA)	Adaptive, Physical
Physical Therapist (PT)	-Colorado State License -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	Colorado Department of Regulatory Agencies (DORA)	Adaptive, Physical
Special Education Specialist: Deaf and Hard of Hearing (ages 0-21)	-Colorado state teaching license with Special Education Specialist: Deaf and Hard of Hearing, (ages 0-21 endorsement), or equivalent licensure in another state -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	Colorado Department of Education (CDE)	Physical (Hearing)

Special Education Specialist, Visually Impaired, (ages 0-21)	-Colorado state teaching license with Special Education Specialist: Visually Impaired, (ages 0-21) endorsement, or equivalent licensure in another state -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	Colorado Department of Education (CDE)	Physical (Vision)
Speech-Language Pathologist (SLP)	-Colorado State Certification -American Speech-Language-Hearing Association (ASHA) Certification (CCC-SLP) -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of EI Colorado's EI Provider Training	Colorado Department of Regulatory Agencies (DORA) American Speech-Language-Hearing Association (ASHA)	Communication, Cognitive, Adaptive
Speech Language Pathology Clinical Fellow (CF)	-Provisional Certification with ongoing supervision by a Colorado licensed and ASHA certified SLP -Completion of EI Colorado's EI Provider Training	Colorado Department of Regulatory Agencies (DORA) - Provisional Certification American Speech-Language-Hearing Association (ASHA) for supervision guidelines	Communication, Cognitive, Adaptive
Psychiatrist	-MD or DO with Child and Adolescent Board Certification -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of the DC: 0-5 Clinical Training -Completion of EI Colorado's EI Provider Training	Colorado Board of Medical Examiners	Social-Emotional, Cognitive
Clinical Psychologist	-Doctorate of Psychology or Doctorate of Philosophy -Colorado state license -Specialized training related to evaluation tools, screening and methods as required by the state	Colorado Psychologist Examiners Board Colorado Department of Regulatory	Social-Emotional, Cognitive

Personnel Standards

	-Completion of the DC: 0-5 Clinical Training -Completion of EI Colorado's EI Provider Training	Agencies (DORA)	
School Psychologist	-Master's degree -School psychologist certification -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of the DC: 0-5 Clinical Training -Completion of EI Colorado's EI Provider Training	National Association of School Psychologists Colorado Department of Education (CDE)	Social-Emotional, Cognitive
Licensed Clinical Social Worker (LCSW)	- Master's degree and state license -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of the DC: 0-5 Clinical Training -Completion of EI Colorado's EI Provider Training	Colorado Social Work Examiners Board	Social-Emotional, Adaptive
Licensed Professional Counselor (LPC)	-Master's degree and state license -Education or experience in early childhood mental health -Operating under the supervision of an LCSW or LPC according to the requirements of the licensing board -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of the DC: 0-5 Clinical Training -Completion of EI Colorado's EI Provider Training	Colorado Professional Counselor Examiners Board	Social-Emotional, Adaptive

Licensed Marriage & Family Therapist	-Master's degree and state license -Education or experience in early childhood mental health -Specialized training related to evaluation tools, screening and methods as required by the state -Completion of the DC: 0-5 Clinical Training -Completion of EI Colorado's EI Provider Training	Colorado Marriage Therapist Examiners Board	Social-Emotional, Adaptive
Board Certified Behavior Analyst (BCBA)	-Master's or Doctorate degree with specialized instruction -Completion of DC: 0-5 Overview Training -Completion of EI Colorado's EI Provider Training	Behavior Analyst Certification Board	Social-Emotional
Provider of home facilitation for families of children who are deaf/hard of hearing (CHIP facilitator) <i>(Must be: Speech Language Pathologist or Special Education Specialist: Deaf/Hard of Hearing, birth-21, or Audiologist)</i>	-Master's degree with appropriate certification or license (Speech Language Pathology with Deaf/HOH focus or Deaf Education) -Specialized training as determined by the state and connection with a CO-Hear -Completion of EI Colorado's EI Provider Training	Colorado Department of Regulatory Agencies (DORA) American Speech Language-Hearing Association (ASHA) Colorado Department of Education (CDE)	Communication, Cognitive, Adaptive
Teacher of the Visually Impaired/Special Education Specialist, Visually Impaired, (ages 0-21)	-Colorado state teaching license with Special Education Specialist: Visually Impaired, (ages 0-21) endorsement, or equivalent licensure in another state -Completion of EI Colorado's EI Provider Training	Colorado Department of Education (CDE)	Cognitive, Adaptive

Assistive Technology Services:

Means the direct selection, acquisition or use of assistive technology devices, and includes:

- Functional evaluation of the developmental needs of the infant or toddler in his or her usual environments; and,
- Selection, acquisition, modification or customization and maintenance of assistive technology devices; and,
- Coordinating and using other therapies, interventions or services with assistive technology devices, such as those associated with existing intervention plans and programs; and,
- Training or technical assistance for professionals providing early intervention services or other individuals identified as providing early intervention services to, or are otherwise substantially involved in the major life functions of, an infant or toddler on the use of assistive technology devices; and,
- Training or technical assistance for an infant or toddler receiving early intervention services or, if appropriate, the child's family; and,
- Any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified or customized, that is used to increase, maintain, or improve the functional, developmental capabilities of an infant or toddler in his or her usual environments.
- The device must be identified in the Individualized Family Service Plan; and,
- Prior to purchase or lease of an assistive technology device, an assessment shall be conducted by a qualified early intervention provider to assure that the device is appropriate for the child and family's needs.
- Does not mean, a device that is primarily intended to treat a medical condition, to meet life-sustaining needs, or a medical device that is surgically implanted, including a cochlear implant. It also does not mean the optimization, maintenance or the replacement of such a device.

Qualified Personnel	Minimum Standards	Regulatory Agency	Agency Information
Assistive Technology Professional (ATP)	-Degree/discipline-specific certification of license -Pass the ATP exam through RESNA/Assistive Technology Professional (ATP) Certification -Completion of EI Colorado's EI Provider Training	Rehabilitation Engineering & Assistive Technology Society of North America (RESNA)	https://www.resna.org/Certification/Assistive-Technology-Professional-ATP
Rehabilitation Engineering Technologist (RET)	-Degree/discipline-specific certification of license -Rehabilitation Engineering Technician (RET) Certification -Completion of EI Colorado's EI Provider Training	Rehabilitation Engineering & Assistive Technology Society of North America (RESNA)	https://www.resna.org/Certification/Rehabilitation-Engineering-Technologist-RET

The following provider types may provide AT services with additional professional development, knowledge and experience in AT.

Audiologist	-Doctorate (after July 1, 2007) or Master's Degree with American Speech-Language-Hearing Association (ASHA) Certification of Clinical Competence in Audiology (CCC-A) -Completion of EI Colorado's EI Provider Training	Colorado Department of Regulatory Agencies (DORA) American Speech-Language Hearing-Association (ASHA)	https://dpo.colorado.gov/Audiology/Links https://www.asha.org

Audiology Services:

Means services for the identification of an infant or toddler with an auditory impairment using at-risk criteria and appropriate audiologic screening techniques, and includes:

- Loss and communication functions, by use of audiological evaluation procedures; and,
 - Auditory training, aural rehabilitation, speech reading and listening devices, orientation, and other training to increase functional communication skills; and,
 - The determination of the need for individual amplification, including selecting, fitting and dispensing an appropriate listening and vibrotactile device, and evaluating the effectiveness of the device; and,
 - Referral for medical and other services necessary for the habilitation or rehabilitation of an infant or toddler with a disability which is an auditory impairment; and,
 - Family training, education, and support provided to assist a parent or other caregivers of a child eligible for services in understanding the special needs of the infant or toddler as related to audiology and aural rehabilitation services; and,
 - The provision of services for prevention of hearing loss.
- Does not mean, therapeutic services required for an infant or toddler to recover from medical procedures such as surgery, etc., or pre-surgery therapeutic services required by a physician to prepare a child for surgery and that are beyond the scope of the early intervention services identified in the child's Individualized Family Service Plan as being needed to meet the child's developmental outcomes.

Personnel Standards

Board Certified Assistant Behavior Analyst (BCaBA)	- Bachelor's degree and pass the BCaBA examination - Operate under supervision of a BCBA according to the requirements of the certification board - Completion of DC: 0-5 Overview Training - Completion of EI Colorado's EI Provider Training	Behavior Analyst Certification Board	https://www.bacb.com/bcaba/
Infant Family Specialist	- Bachelor's degree in related field and completion of IMH-E® for an Infant Family Specialist with continuing reflective supervision from an IMH E®-approved provider - Completion of DC: 0-5 Overview Training - Completion of EI Colorado's EI Provider Training	Colorado Association for Infant Mental Health (confers IMH-E® to qualified candidates only-not a regulatory board)	https://www.allianceaimh.org/endorsement-licensing

Health Services:

Means services by a licensed health care professional that enable an eligible infant or toddler to benefit from other allowable early intervention services, and includes:

- Assessment to determine the health status and special health care needs that will impact the provision of other early intervention services; and,
- Services such as clean intermittent catheterization, tracheostomy care, tube feeding, the changing of dressings or colostomy bags, and other health services; and,
- Consultation by a health care professional with a parent or other service provider regarding the impact of the infant or toddler's health status on the provision of other early intervention services

Does not mean:

- Services that are:
 - Purely medical in nature, such as hospitalization, or the prescribing of medicine or other drugs for any purpose; or,
 - Surgical in nature, such as cleft palate surgery or shunting for hydrocephalus; or,
 - Medical diagnostic procedures, services that are primarily intended to treat a medical condition; or,
 - Related to the implementation, optimization, maintenance, or replacement of a medical device that is surgically implanted.
- Devices necessary to control or treat a medical condition, or that are medical or health services routinely recommended for all infants and toddlers.
- Nothing in this section of the rules limits the rights of an infant or toddler with a disability, that has a surgically implanted device, to receive the early intervention services identified in the child's Individualized Family Service Plan as being needed to meet the child's developmental outcomes.
- Nothing in this section of the rules prevents the early intervention services provider from routinely checking that either the hearing aid or the external components of a surgically implanted device, such as a cochlear implant, used by an infant or toddler with a disability are functioning properly.

Qualified Personnel	Minimum Standards	Regulatory Agency	Agency Information
Registered Nurse	- Colorado State License - Completion of EI Colorado's EI Provider Training	Colorado Board of Nursing	https://www.colorado.gov/pacific/dora/Nursing
